

## SCORES OF MEN RETURN TO WORK

Warren District Mines Increase Their Forces; Bisbee Feels More Happy.

Bisbee, Ariz., Feb. 10.—During the past week some scores of men have been added to the payroll of the mining companies in the Warren district, and a very perceptible better feeling is the result, for it is believed the increase will be steadily maintained until the mines, Copper Queen, Shattuck and Calumet and Arizona, will be working their full crews again.

The companies here are adhering to their policy of giving work first to the employees who have been staying here close to the mines awaiting an opportunity to be hired, rather than outsiders who drift in. Also, the companies have been careful to provide, throughout the strike period, work for as nearly all the married men as possible. This has resulted in drawing the operators and miners very close together in sympathies and the feeling between employer and employee could not be better, observers of conditions state.

**Hoatson Output Is Increased.**  
Most of the recent increase in ore production has been in sulphides from the Hoatson shaft of the Calumet and Arizona, following an order for the increase in the smaller output. Just what this order was is not known. The sulphides in the Hoatson shaft were in

## WORK RESUMED IN TWO CAMPS

Hurley and Santa Rita Are Scenes of Old Time Activity.

Hurley, N. M., Feb. 10.—The steady advance in the price of copper has resulted in the resumption of operations here and at Santa Rita on an extensive scale, so that the curtailment of mining operations early last fall as a result of the European war, has ceased.

**Prosperity Appears Assured.**  
At the present time practically the full working forces in the two camps are being employed, business has revived as a consequence and indications for a continuance of the present prosperity seems assured.

Unless another shut down should occur, the year should see a record production of copper in these camps.

**Miners Plan Pacer Properties.**  
In the Dragon mountain, in the vicinity of the Jones-Muhlenberg property, which is assuming the look of a bonanza, it is said, miners are working placer claims with good results and are making day's wages or better every day with the pacer. Recent rains have furnished plenty of water for placer purposes.

## BIGGEST COPPER CHIEF

New York Men Get Controlling Interest in Casa Grande Property.

Casa Grande, Ariz., Feb. 10.—New York interests, represented through the Spillbury Engineering company, have bought a controlling interest in the Copper Chief mine, owned by John Road Mc. Road interested the New Yorkers by showing the result of the development work done on the property. The deal was consummated following an examination by engineers.

**Finds Big Zinc Deposit.**  
Van E. Brooks, of the Old Howard property, about 27 miles southwest of Casa Grande, reports that there is a very large deposit of zinc ore. This deposit has been developed to a depth of 200 feet and on the surface a good deal of high grade carbonate of zinc ore shows. The management states that it has a carload ready for shipment which will average about 40 percent zinc.

**Copper Ready for Shipment.**  
It is also stated that a car of copper ore is being mined for immediate shipment and will be shipped as soon as the condition of the roads permit hauling to Casa Grande. Several cars of copper ore have been shipped recently from this property, but the shipment of zinc is a new feature from this section.

Berttram Grant, of Colorado, has left for the Silver Dullion mine, where he will commence active operations on the property for the Sternberger interests of Colorado.

J. W. Carpenter, superintendent of the O. M. C. gold mines, reports very satisfactory developments on the "Tribute claim."

Mr. Forbach, who has the Silver Reef mine, reports that he expects to have the mill in operation in about a week. This property will then again enter into the list of producing properties.

A local supply company reports that it has shipped more supplies for mines, for the district south of here, from the first of the year to date, than has been shipped during the entire year 1914, and it is predicted that the old Casa Grande mining district will again come to the attention of the public.

Quite a number of prominent mining men have been through here lately on their way to make examinations of different properties.

## RAILROAD IS PLANNED TO STEELEROCK MINE DISTRICT

Silver City, N. M., Feb. 10.—Grant county may soon have a new railroad. Capitalists, interested in the reopening of the once famous Steelerock mining district, in northwestern Grant county, contemplate the building of a 12 mile line to connect the camp, now without rail communication, with the New Mexico & Arizona railroad.

The only outlet the Steelerock district has at the present time is by a wagon road to Duncan, Ariz. The recent destruction of the bridge across the Gila river at Duncan has almost isolated the camp and caused a virtual curtailment in mining operations there. The railroad would not only furnish a ready means of communication, but would overcome the problem of freight, being over a precipitous mountain road as is now the case.

## WORK ON TYRONE MILL IS PUSHED BY PHELPS-DODGE

Tyrone, N. M., Feb. 10.—The construction of the big mill in this camp, by the Phelps-Dodge corporation is going ahead steadily and the large force of men at work will have the mill completed before many weeks.

This camp promises to become one of the biggest copper producers in the southwest within a few years, rivaling Hurley and Santa Rita. Hundreds of men are now at work here.

## ELKS ENTERTAIN STATE OFFICERS WITH DINNER

The annual visit of E. H. Perry of Plainview, Tex., secretary of the Benevolent and Protective Order of Elks, and also president of the state Elks association, to the local lodge, was made the day of a banquet at the Hotel Paso del Norte, Tuesday.

With Mr. Perry was M. B. Henderson, also of Plainview, a member of the executive committee of the state association.

Present at the banquet, besides the visitors, were exalted ruler V. R. Stiles of the El Paso lodge; Clyde Holmes, past exalted ruler; Dr. G. H. Higgins; Ed Kneisel, past exalted ruler; Roy D. Barnum, loyal knight; and J. E. Anderson, secretary of the local lodge. The inspection by Mr. Perry was made Tuesday night.

## MARKET LISTS OF PRODUCTS ARE PRINTED FREE BY STATE

Bulletins of the recently organized permanent warehouse and cooperative association marketing department of the state of Texas have been received by the chamber of commerce. The bulletins are usually listed by chambers of commerce for farmers' associations. All notices for publication must be sent in on the Wednesday before publication in the Texas marketing publication and distributed free.

The local business of the department will be carried for the agricultural committee of the chamber of commerce, of which George LeBaron is chairman.

## NEW DATES ARE ARRANGED FOR HOLDING RATE HEARINGS

Washington, D. C., Feb. 10.—New dates for hearings in Chicago on freight rate increases proposed by western railroads were announced by the interstate commerce commission Tuesday.

The hearings will be held before commissioner Daniel S. Hastings March 4 and lasting until early in April, in making its announcement the commission says that it is sufficient evidence within the dates set, additional dates may be arranged after April 2.

## Combing Won't Rid Hair of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arborvitae; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. No matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop, and your hair will be fluffier, lustrier, glossier, silkier and softer and look and feel a hundred times better.

You can get liquid arborvitae at any drug store. It is inexpensive and never fails to do the work.—Advertisement.

## CASH AND SNOOZER MINES RESUME WORK

Cash and Snoozer Mines Near Prescott to Be the Scene of Activity.

Prescott, Ariz., Feb. 10.—Production will be resumed immediately at the Cash and Snoozer mines, 12 miles south of Prescott, which are controlled by the Commercial Mining company. A 100 foot mine has been sunk from one of the Cash drifts into Snoozer group and a large ore body opened. Shipments will be made to the Douglas smelter of the Copper Queen company. It is planned to start the mill at an early date and the enlargement of the plant is being contemplated.

Financial arrangements have been made for additional development at the Little Jeane mine. Recently a shoot of splendid ore was cut on the 200 foot level. The shaft will be watered and the lower levels extended to tap this ore. The richer ore from the new strike, which averages above \$200 a ton in gold, will be shipped, while the lower grade product will be handled by a mill on the ground.

**Planning for New Plant.**  
Advices from Crown King are that 10 men are employed in blasting the foundation for the new plant of the Grey Eagle Reduction company. It is expected that the mill will be completed in about four months. Custom ore will be handled and since actual work is preparatory to building the mill, renewed activity has been in evidence throughout the Crown King district.

Texas stockholders of the Buster mine, near Crown King, have advanced funds for another campaign of development. It is expected that the Buster will be one of the properties furnishing ore for the new plant.

**Takes Hand on Lavinia Group.**  
Sidney V. Smith, of San Francisco, has taken a bond and lease on the Lavinia group of gold claims, Groom creek district. He will establish a camp and begin development at once.

William Linden, who is operating the Cottonwood group, has just marketed at Prescott \$400 worth of ore from the Golden Eagle claim. The ore averages above \$55 a ton in gold.

## CHANGES IN STATION OF MEDICAL OFFICERS ORDERED

Washington, D. C., Feb. 10.—The following changes in stations and duties of medical officers of the army are ordered:

Capt. Howard M. Snyder, medical corps, ordered to Texas City, Tex., for temporary duty.

Capt. Alexander D. Paros, medical corps, relieved from duty at Letterman General Hospital, Presidio of San Francisco, and ordered to Texas City, Tex., with station at Fort Benjamin Harrison, Ind., with station at Fort Crockett, Tex., and ordered to Texas City, Tex., for duty.

First Lieut. Kanyon A. Joyce, 6th cavalry, detailed as inspector-instructor of the 5th cavalry district, comprising the states of California and Washington, with station at San Francisco.

First Lieut. William O. Bailey, medical reserve corps, relieved from duty at the Army Medical school, this city, and from active duty in the medical reserve corps.

First Lieut. George B. Phillips, corps of engineers, detailed as a member of the joint army and navy board appointed for purpose of considering specifications for the manufacture and test of smokeless powders for war and navy departments, vice Maj. Edward P. O'Hara, ordnance department, relieved.

Maj. George B. Phillips, corps of engineers, detailed as a member of joint army and navy board appointed to meet in this city for the purpose of considering specifications for manufacture and test of smokeless powders vice Maj. William A. Phillips, 2d infantry, relieved.

Capt. Fox Connor, 5th field artillery, relieved from assignment to that regiment, and ordered to Fort Sill, Okla., for duty with the school of fire for field artillery and as a member of the field artillery board.

Capt. John W. Kilbreth, Jr., 4th field artillery, transferred to 5th field artillery and assigned to battery A.

Capt. Robert E. Wainwright, field artillery, detailed as student officer at the school of fire for field artillery, Fort Sill, Okla.

## CATTLEMEN COMING WITH BRASS BANDS

Albuquerque, Roswell and Amarillo are planning to send large delegations to El Paso for the Panhandle and Southwestern Cattlemen's convention in March.

Albuquerque is advertising for the biggest band to be found in that section. The animal will be used to lead the parade which the Albuquerque delegation will give here as a part of the campaign to land the 1915 convention. The Albuquerque delegation will come over the Santa Fe and will bring a large assortment of Indian souvenirs with them for distribution among the cattlemen.

Roswell will bring a band to the convention and will try to get the convention for 1916. The New Mexico Military Institute cadet band will be brought here by George Slaughter, who is working up interest in the trip. It has been nine years since the band have entertained a convention and they are anxious to get the next year's convention.

Corral is also coming to El Paso to fight for the convention. This city made a strong fight against El Paso at Oklahoma and the convention is expected to be the busiest ever held in El Paso.

## MISS RAYMONDS TO SING IN SAN FRANCISCO SOON

Miss Sarame Raynolds (Rainold), stage name, will appear with the National Grand Opera company in San Francisco on next Monday night and sing the prima donna role in "Il Lombardi."

Many of her friends in El Paso have written their friends in the Pacific coast city not to miss the performance.

There is certain it will be a treat for her singing in the same opera, the Los Angeles Express recently said.

Miss Raynolds portrayed the queen and it proved to be the most satisfactory role she has yet presented. She takes to royal robes much more naturally than to costumes of bondage, and lent to the part a regal grace that was utterly captivating.

As for her singing, it was superb, the audience quite got into ecstasies over her love duet with Ray Blum, in which she divided honors with Poggi-Levera, who sang this dual character.

## PHONE YOUR KICK.

If you have a complaint to make to the city, don't keep it to yourself. Phone 4200 or write to the complaint clerk and get results. We may not know about your complaint. We want to give everyone the very best attention possible.—Advertisement.

**"Welcome to Our City"**  
CARL LAEMMLE, President.

We're going to dedicate Universal City March 15. We want you to be there. If you can't come on that date, come when you can. No, there won't be any brick laying or bum speeches. We're simply going to open the only moving-picture city in the world and invite the public to look at it from the inside.

You can't go to Europe. You might be pickled as a spy or mugged up by a Krupp gun or stabbed by a Cossack. So get your clothes together and come on out to California—to Universal City and

## See How the Movies are Made

You'll see all your favorite screen stars at work. You'll see buildings built in an hour and then blown up. You'll see comedies and tragedies, ballroom and battle scenes, screaming cowboys and fuzzy redskins. You'll see buildings with different architecture on the four sides so they can be used as backgrounds for foreign pictures.

You'll see a moving picture city with a population of 2,000—a population as varied as a mince pie—and all making Universal pictures. You'll never forget it if you live to be a thousand. And you're as welcome as the flowers in May. Go direct to Los Angeles on the Santa Fe. It's only a step from there.

## BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wet's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.—Advertisement.

## Why "No Coffee" For Children?

Many parents who drink coffee would not allow their children to touch it.

The 2 1/2 grains of the drug, caffeine, in the average cup of coffee, is far more injurious to the susceptible nature of a child than to an adult, but, just as constant dripping will wear away stone, so will the repeated doses of caffeine undermine the strongest constitution.

Parents who would protect their own health as they do that of their children, will see the reason for quitting coffee and using

## POSTUM

This pure food-drink contains nothing that is harmful or injurious, but is, on the contrary, healthful and invigorating.

Postum is easy to make; has a delightful snappy flavour, very much like Old Gov't Javaz; and is good for both children and adults.

Postum is sold in two forms—Regular Postum, which requires boiling, 15c and 25c packages; Instant Postum, which is soluble in hot water—made instantly in the cup, 30c and 50c tins.

Both kinds are equally delicious, and the cost per cup about the same.

## "There's a Reason" for POSTUM

—sold by Grocers everywhere.
